Interview Summary A

SIR:

Applicant wishes to thank the Examiner and the Primary Examiner for conducting the telephone interviews on March 4, 2003. The undersigned discussed limitations of the pending independent and dependent claims with respect to the asserted prior art.

With respect to claim 1, the limitation of changing the first communication on the substrate to form a second communication which is different from the first communication was discussed as not being disclosed nor suggested by the prior art. An amendment to claim 1 in the accompanying response was also discussed to further distinguish claim 1.

With respect to claim 7, the undersigned discussed a database having multiple versions of a document stored therein as data sets, the multiple versions having a common document specific code associated therewith in the database and having different version specific codes as not being taught nor disclosed by the prior art.

Interview Summary A*

With respect to claim 13, the limitations of storing multiple versions of a communication in a database and prompting a user to select which of the multiple versions is to be displayed were discussed as not being disclosed nor suggested by the prior art of record.

The undersigned and the examiners also discussed motivational rationale for proper obviousness rejections as lacking with respect to at least some of the pending claims.

It was agreed that Applicant would file the accompanying After Final response in view of the favorable discussions during the interview. Applicant respectfully requests allowance of all pending claims for the reasons in the accompanying and previously-filed responses.

The Examiner is requested to phone the undersigned if the Examiner believes such would facilitate prosecution of the present application. The undersigned is available for telephone consultation at any time during normal business hours (Pacific Time Zone).

Respectfully submitted,
Keith E. Moore
